

Asthma First Aid

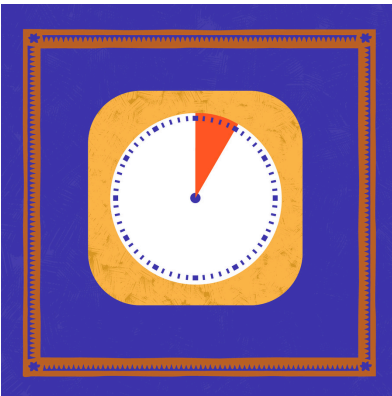

Step 1

- Sit your child up
- Stay Calm
- Do not leave your child alone

Step 2

- Shake the blue inhaler
- Put 1 puff into the spacer
- Get child to take 4 breaths from the spacer

Step 3

- Wait 4 minutes
- If there is no improvement repeat step 2

Step 4

- If not getting better, call 9-1-1 and ask for an ambulance
- Tell the 9-1-1 operator that “someone is having an asthma attack”
